

**1. Plot plan (also called Site plan) 1/8"=1'-0" (half size of Floor plan)**

- .1 **Building "footprint"**: where bldg. meets ground, dark outline
- .2 **Basics**: North arrow, scale, entry, steps, walks, patios, decks, garden walls, retaining walls, fences, driveway, setbacks
- .3 **Notes**: most things you draw, can also be noted
- .4 **Landscape**: trees, shrubs & groundcover (low water use)
- .5 **Green Building**: south facing shape, low water use landscape

BUILDING FOOTPRINT  
SIMPLE TREES & SHRUBS

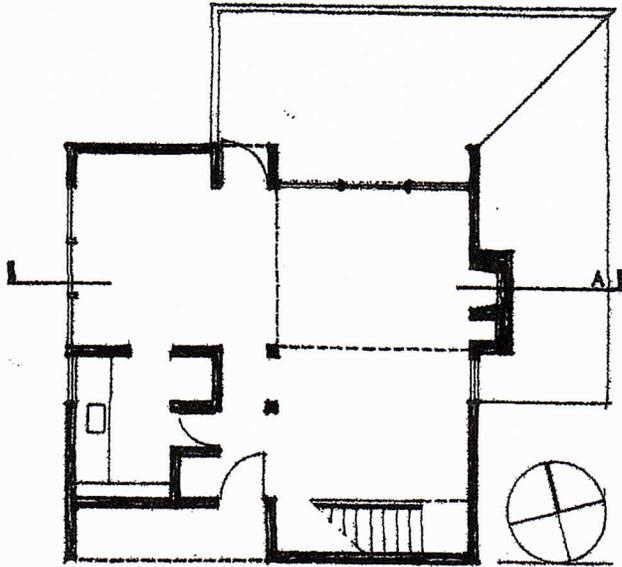

**3. Elevation: 1/4" = 1'-0" scale (same size as Floor plan both vertically and horizontally)**

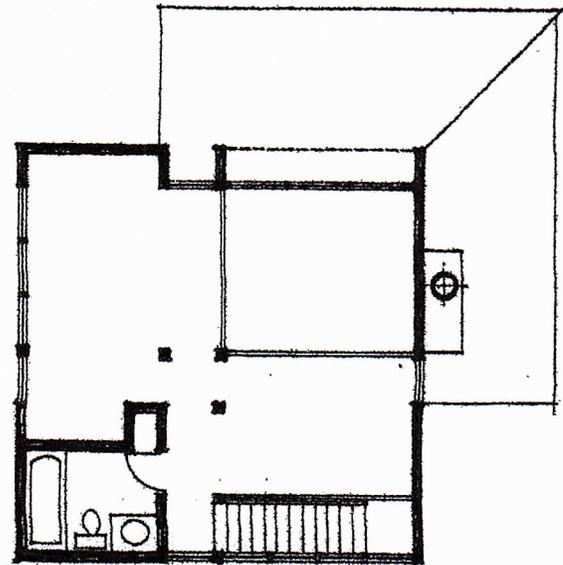

An elevation is a straight-on view of the outside of the building. Select the elevation(s) you think best shows the building design. Use your Floor plan as a guide from which to draw your elevation.

2. **Floor plan** - ways to make the Floor plan read clearly:
  - .1 show Kitchen counters refrig., stove, sink; Bathroom vanity/sink, toilet, tub and/or shower.
  - .1 make sure windows and doors show clearly, poche walls,
  - .2 add furniture, show floor material like tile

SECOND FLOOR PLAN

SOUTH ELEVATION

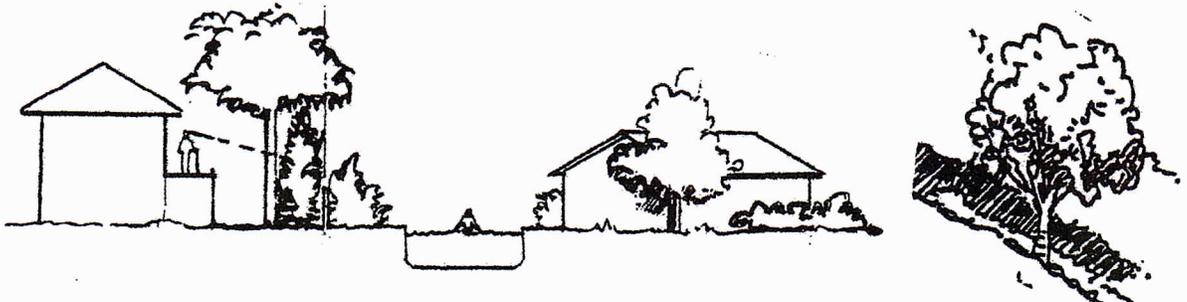

BUILDING SECTION A

3. **Elevation:** a straight-on view of the outside of the building. Select the elevation(s) you think looks the best and/or best shows the building. Use your Floor plan as a guide from which to draw your elevation.
  - .1 Ways to make an Elevation read clearly: add dark outline for closest parts, so the building shows depth. Shadows can do this too. Building materials: can show just in small areas (saves time).

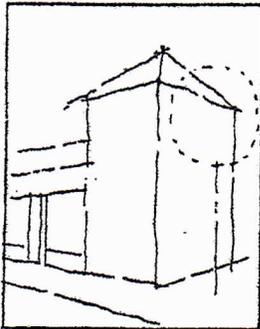

PERSPECTIVE

SIMPLE TREES (14'-30' TALL)

**Buildings:** Perspective or sketch: doesn't have to be to scale, can show a partial view such as an entry, fireplace or other important feature.

1. light blockout

2. Darken shape

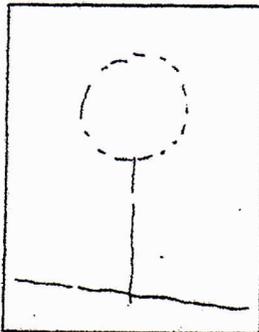

3. Darken Details

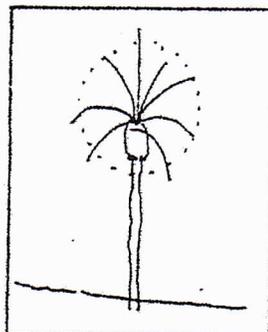

4. Finishing Touches

**Palm Trees:** 30'-40' TALL

1. light blockout

2. Branches

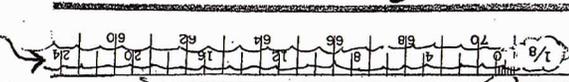

3. Leaves

4. Darken + Finish
